

God Unleashes Hell on Rio Rancho

Experts Say It's Payback for No Intelligent Design Being Taught As Science in Public Schools

Unconfirmed sources report that the city of Rio Rancho, New Mexico has been destroyed by massive floods. New Mexico State Department of Homeland Security officials are on the scene and indicate that the devastation of the once proud "City of Vision" is utterly complete. The devastation was caused by a massive storm of thunder, lightening and rain that engulfed and flooded the city for several days as predicted by Reverend Don Schlichte.

Schlichte Who is on Rio Rancho Public Schools Board, had warned of bad things happening for the city after it's school board voted to realign Policy 401 to meet State standards which does not include ID. The controversial Policy 401 passed only last year would allow the teaching of Intelligent Design as part of the science curriculum.

"I hate to say I told you so," said Hope Garcia. "but I told you this would happen. The godless people of Rio Rancho have brought this destruction upon themselves. God has unleashed hell on Rio Rancho. There is no one else to blame for this disaster of biblical proportions. This should stand as a lesson to others that Intelligent Design is the will of God and should he be denied, God will be very upset."

"I've never seen anything like it." Said Jesus Garcia, who was just leaving the city Rio Rancho when it was all but destroyed. "I saw flashes of lightening, out the corner of my eye and heard large thunderous explosions and looked up to see a huge volumes of water pouring out of the sky. It was raining cats and dogs and there were poodles in the road. The streets filled quickly and that was all she wrote. I'm kind of sad about it really, there was a gas station I liked to eat at. They had good burritos."

New Mexico Homeland Security puts the death toll at more than 23,000 lizards, 2000 rabbits, numerous cats, dogs, sinners and heathens with damage estimates in the millions of dollars. The Homeland Security team landed by helicopter where the Rio Rancho Public Schools District Office was supposed to be found only mud, muck and rubble. Every tree, building, and structure of any type, has been destroyed.

Kevin Jackson mayor, who had just finished meeting with the members of Pastor Net of Rio Rancho said, “The rebuilding of the City of Vision is going to be a massive undertaking and is expected to take years. We need to be better prepared for the continued devastation brought on by God. Our first priority is to build an Ark.”

Jackson who headed up the Regional Transportation Summit believes that an ark will be the best use of limited resources, since most of Rio Rancho’s dirt roads are now non-existent and the ark offers the best chance of survivability. He has commissioned the building of the “Silvery Minnow,” which will be a state-of-the art ark with all the amenities. He has chosen Don Schlichte as the captain, Dr’s David and Rebecca Keller, experts on the real story of the beginning of life, as technical advisors, and Kathy Jackson and the Focus on the Family group. According to Jackson, this hand picked team will determine who is moral enough for entrance to the ship. Non-believers need not apply.

Governor Richardson sprung into action met on Larry King Live with Bishop David Doyle of the Evangelical Catholic Diocese of the Southwest to request that his Evangelical Catholic Church end its nine-week summer Novena for more rain. The governor has declared that Intelligent Design will be taught in every school in New Mexico and that all mention of evolution and Darwin be struck from state’s libraries and schools. Senator Pete Domenici has presented an a Keep America Safe From Gods Wrath Amendment to the president. The president has signed the bill and state legislatures across the nation are already approving the measure.
